Education

Chandigarh University	2023
Master of Computer Applications (GPA: 6.86 / 10.00)	*Mohali, Punjab*
Ranchi University	2021
Bachelor of Computer Applications (GPA: 8.74 / 10.00)	*Ranchi, Jharkhand*

Experience/Internship

The Assigner, Karnal   Nov 2023 – Feb 2024
Frontend Developer Intern

- Developed key employee management pages for an HRMS, including attendance tracking, leave records, salary breakdowns, and performance monitoring.
- Implemented features for Team Leaders to manage their teams, add/remove employees, and track team performance.
- Worked on the administrative dashboard, integrating attendance and performance graphs to provide insights into employee productivity.
- Utilized React.js and Tailwind CSS for frontend development and integrated APIs provided by the backend team to ensure seamless data flow.

Solar Secure Solution   Sep 2023 – Nov 2023
Full Stack Development Intern

- Developed a secure, user-friendly restaurant website, incorporating MySQL for database management, PayPal for payment processing, and robust user management features.
- Engineered dynamic product displays with seamless payment integration using HTML/CSS, Bootstrap, and Node.js, enhancing the user experience and operational efficiency.
- Oversaw the comprehensive management of users, products, payments, and orders, ensuring seamless and secure web operations.

Projects

Coding Quiz Menia | *JavaScript, HTML, CSS* | 🐙 Repository | Live Link

- Created an array of quiz questions and answers using JavaScript for dynamic quiz content.
- Implemented a feature to validate user-selected answers and calculate the score based on correctness.
- Developed a simple and user-friendly responsive UI.

ShareMe Web Application | *Node.js, MongoDB, Express, Socket.io, JWT* | 🐙 Repository

- Developed a secure file-sharing web application with user authentication, authorization, and password-protected downloads.
- Integrated real-time updates using Socket.io and implemented advanced search functionality for easy file retrieval.
- Utilized Node.js, MongoDB, Express, and JWT to ensure a robust backend and seamless file-sharing experience.

Technical Skills

Programming Languages and Technologies: Java, HTML, CSS, Bootstrap, JavaScript, React Js, Node Js, MongoDB
Development Tools: GitHub, Vs Code

Certificates

- Top Performer certificate in front-end courses organized by Coding Ninjas
- Certificate of JAVA (Basic) from Hackerrank
- Certificate in Networking Basics from Cisco, awarded upon successfully passing the final exam. View Certificate
